
Rahul Verma — Mechanical Engineer

SUMMARY

Professional Mechanical Engineer with 5+ years of experience in project engineering, structural analysis, and technical design. Proficient in AutoCAD, SolidWorks, MATLAB, and ANSYS. Skilled in managing engineering projects from concept to completion with expertise in ASME and ASTM standards. PE License holder with experience in MS Project and Primavera for project scheduling and budget management.

TECHNICAL SKILLS

- Design Tools: AutoCAD, SolidWorks, ANSYS, MATLAB
- Project Management: MS Project, Primavera, SAP
- Standards: ASME, ASTM, ISO, Engineering Safety Codes
- Expertise: Structural Analysis, Load Calculations, Material Selection, QC

PROFESSIONAL EXPERIENCE

Project Engineer — BuildTech Engineering (2020–Present)

- Designed and oversaw mechanical engineering projects worth \$10M+ from concept to completion
- Prepared technical drawings, specifications, and documentation using AutoCAD and SolidWorks
- Conducted structural analysis and load calculations using ANSYS and MATLAB
- Managed project timelines and budgets using MS Project and Primavera, delivering on time
- Ensured compliance with ASME, ASTM, and ISO engineering safety standards

Junior Engineer — ConstructPlus (2018–2020)

- Assisted in design and material selection for civil and mechanical projects
- Supported site supervision and quality control inspections
- Used AutoCAD for drafting and SAP for project documentation

EDUCATION

B.E. in Mechanical Engineering — Engineering College (2018)

CERTIFICATIONS

- Professional Engineer (PE) License
- AutoCAD Certified Professional
